1740m² A Grade Warehousing facility in secure complex

This portal-style insulated warehouse is situated in a 24-hour secure industrial complex, providing a safe environment for operations. The warehouse itself is constructed using facebrick, which offers durability and a professional appearance. One of the key features of this warehouse is the large paved secure yard, providing ample space for parking, maneuvering vehicles, or outdoor storage. Access to the warehouse is facilitated by two extra-wide high bay roller doors, allowing for easy entry and exit of goods and vehicles.

In terms of electrical supply, the warehouse is equipped with a 3-phase electrical system, which is ideal for industrial operations and machinery. This ensures a reliable and efficient power source to support various equipment and operations within the warehouse.
