3730m² Portal Style Warehouse

The portal style warehousing facility situated in Markman, consists of two separate buildings. It offers a total area of 3730 square meters and is accompanied by a large secured dedicated concrete yard. The facility has easy access for superlinks, which are large trucks commonly used in transportation and logistics.

The buildings feature five high bay roller floors, which provide efficient loading and unloading of goods. Additionally, there is a neat office component within the facility, along with male and female ablution facilities for the convenience of the staff. The location of the facility is advantageous, as it is situated close to the Coega Special Economic Zone (SEZ) and the deepwater
